NEMMEA dist. 2 board will have a meeting on Saturday August 6th. At this meeting work topics will include: tax exempt status, planning of future pd event, mentoring and membership among other general business items.

Another priority of our district has been to be more actively mentoring/communicating with each other and especially our younger/beginning teachers. We have been working on updating and keeping a registry of all the music teachers in our district and we hope to have a better understanding of who has moved where and who is brand new in our district at the meeting in August. This will help with communication to all of our district's teachers.
